

# CHILD SAFE ENVIRONMENT POLICY (SA)

The United Nations Convention on the Rights of the Child (UNCRC) outline that children and young people have a right to be safe and cared for, no matter where they are or who they are with. Children have the right to be protected from harm, violence or neglect. When working with children and young people, it is important to understand children’s rights and needs.

We are advocates for children and have a strong commitment to child safety and establishing and maintaining a child safe environment. Children’s safety and wellbeing are paramount at our Service. Our Service embeds the National Principles for Child Safe Organisations and promotes a culture of safety and wellbeing to minimise the risk of harm to children whilst promoting children’s sense of security and belonging. ### WORKING WITH CHILDREN CHECK (National Principle 5)

Working in conjunction with the *Child Safety (Prohibited Persons) Act 2016* and *Education and Care Services National Regulations*, the safety, welfare and wellbeing of children is paramount within our Service and community. A Working with Children Check (WWCC) issued by the Screening Unit of the Department of Human Services is a requirement for people who work in child-related work. It involves a national criminal history check and a review of findings of workplace misconduct and child protection concerns. The result of a Working with Children Check is either Not Prohibited and is valid

for five years, or prohibited, which means they cannot work with children. Cleared applicants are subject to ongoing monitoring and relevant new records may lead to the clearance being revoked.

Our Service is registered with the Department of Human Services (DHS) Screening Unit and link all Working with Children Checks. We also verify all staff, educator, students and volunteer Working with Children Checks in accordance with the *Child Safety (Prohibited Persons) Act 2016*. Management is responsible for the periodic review and maintenance of up-to-date records of volunteer, staff, and educator’s Working with Children Check, including the Working with Children Check number and the date on which each Working with Children Check expires. Once an employee provides their *Not Prohibited* Working With Children Check, management will verify the Working With Children Check with the DHS Screening Unit to ensure that is it valid and current. The Working with Children Check will be placed in the individual’s file. For existing staff and educators, we will verify they have renewed their Working with Children Check every 5 years and record the status as *Not Prohibited, Additionally we will perform a WWCC interrogation check every 6 months on all staff and educators for best practice.*

Management will immediately contact the Department of Human Services Screening Unit when we become aware of certain information regarding any person involved with our organisation, including any serious criminal offence, child protection information, or disciplinary or misconduct information. Management will verify all student and volunteer WWCCs prior to placement. Any visitor who has direct contact with children will be required to provide a WWCC for verification prior to coming into contact with children (*best practice*). The approved provider will keep a record for each day a student or volunteer participates in the service including date and hours of participation.

**PHYSICAL ENVIRONMENT – SUPERVISION AND SAFETY CHECKLISTS (National Principles 5 and 7)**

Children’s safety is embedded in our day-to-day practices. We ensure effective and adequate supervision is provided to children at all times consistently, while ensuring educator to child ratios are met at all times. Educators will employ ‘active supervision’ strategies within the service environment and when participating in excursions or transporting children or young people. Consideration will be

made for the different ages and abilities of children and young people and the activities that may require different levels of supervision.

Sleeping infants and toddlers will be closely monitored at regular intervals and will always be within sight and hearing distance of educators so a child’s breathing, and the colour of their skin can be monitored. Consideration will be provided when older children are using the toilet and bathroom areas, including monitoring and supervision across all areas that children access.

Through conducting risk assessments, we assess and manage risks in the physical environment collaborating with children to develop behaviour guidelines for play including adventurous play to ensure their safety. Educators have a sound understanding of their duty of care and responsibilities in ensuring a child safe environment.

Educators conduct regular safety checks to maintain basic standards of safety within our Service. We believe that child safety is a shared responsibility at all levels within our Service. Children and young people are encouraged to speak up about their safety and the safety of their friends by telling an educator if they feel unsafe in a particular situation or environment.

Educators will complete the following daily checklists to assist and record inspections of the physical environment where foreseeable risks may be evident and cause harm or injury to a child:

Any findings that require attention will be either dealt with immediately or submitted into the maintenance book depending on priority.

[Primary policies – Code of Conduct; Supervision; Sleep and Rest; Nappy Change and Toileting; Health and Safety, Staffing Arrangement, Supervision]

**CHILD PROTECTION (National Principle 6)**

Children and young people always have a right to be safe and protected. To comply with legislation and ensure a child safe environment, all educators, staff, volunteers and students are advised of current child protection law and understand any obligations under the law. Supervision is effective to ensure they understand that *child safety is everyone’s responsibility*.

All management (with responsibility or direct contact of children or young person), educators and staff, volunteers and students are mandatory notifiers and have a legal obligation to notify the Department for Human Services if they suspect a child or young person is, or may be at, risk of harm. Notification must be made to the Child Abuse Report Line (CARL) on 13 14 78 or if at immediate risk, report to South Australia Police (SAPOL) on 000. All reports of suspected child sexual abuse are to be made to the SA Police. Neglecting these obligations could potentially be deemed a criminal offence.

All staff and educators are provided with up-to-date training about child protection law and their obligations under this law and to ensure they are confident in following the reporting guidelines within South Australia and adhere to our *Child Protection Policy*. (Reg 84). Management will ensure training and development are provided for all educators, staff, and volunteers in child protection on an **annual** basis.

Through continual education and training, educators and staff are equipped with the knowledge, skills and awareness to keep children safe. Training gives educators and staff confidence to identify, respond and report harm and risk of harm to a child or young person. Nominated supervisors and persons in day-to-day charge must complete a course in child protection approved by the Regulatory Authority on an **annual** basis.

To protect children and young people and ensure their safety, welfare and wellbeing, management is responsive to report allegations or convictions of harm or risk of harm to a child or young person and child related misconduct by any staff member, educator, volunteer or contractor to the screening unit in the Department of Human Services. [\[Safe environments for children and young people\]](#).

Our Service is committed to providing support to children, young people, families, educators or staff who have made a report regarding child protection, with a focus on upholding strict confidentiality throughout the process. Our primary concern is the well-being and safety of the child or young person, and we will work closely with relevant authorities, professionals, and support networks to ensure that the child or young person's best interests are met throughout the process. Our dedicated support system will assist educators and staff in navigating this challenging process while safeguarding their privacy and professional well-being.

### REPORTING AND RESPONDING TO GENERAL COMPLAINTS (National Principle 6)

Feedback from children, young people, families, educators, staff and the wider community is fundamental in creating an evolving Childcare Service working towards the highest standards of care and education. We ensure educators, staff, volunteers and students are well informed about the different ways children may express concerns, distress and disclose harm as well as the process for responding to disclosures from children- including a complaint that alleges a child is exhibiting sexual behaviours that may be harmful to the child or another child. (ACECQA 2023)

We aim to investigate all complaints and grievances with a high standard of equity and fairness. Our Service believes in procedural fairness and natural justice that govern the strategies and practices, which include:

- The right to be heard fairly
- The right to an unbiased decision made by an objective decision maker
- The right to have the decision based on relevant evidence.

The approved provider will place a prominently displayed notice in the foyer area of our service, providing contact information, including the name and telephone number for lodging complaints. Educators and staff will receive guidance on the complaint/ grievance policy and procedure and the process for reporting complaints during their service induction. Families, children and young people will be advised of the complaint/ grievance policy and procedure and how to report complaints during orientation of enrolment. All grievances and complaints will be treated seriously and as a priority, in accordance with the *Dealing with Complaints Policy* and procedure. Any complaints that allege a breach of the National Law and Regulations or alleges that the health, safety and wellbeing of a child or young person at the service may have been compromised will be documented and reported to the Regulatory Authority within 24 hours. In the event that the child, young person or family is dissatisfied with the complaints process, they are advised they have the option to reach out to the Regulatory Authority or South Australian Equal Opportunities Commissioner (for complaints relating to discrimination - [www.eoc.sa.gov.au](http://www.eoc.sa.gov.au) (08) 8207 1977) for further assistance.

### EQUIPMENT, FURNITURE & MAINTENANCE RECORD

There are several factors that can contribute to a hazard, such as a deprived program, insufficient supervision and dilapidated equipment. To ensure a child safe environment free from hazards, our Service has implemented practices and continue to monitor Service policies and procedures that uphold Australian Safety Standards.

The premises and all equipment and furniture used within the Service are audited to ensure all aspects are safe, clean and in good repair. We understand that hazards are specific to developmental stages; educators are aware that toys and equipment need to be checked to ensure they are safe and developmentally appropriate for children. Regular checks occur within the Service to ensure that all toys, furniture and equipment are in good condition and working order.

These checks include: Maintenance records, toys and cleaning register.

### STORAGE OF HAZARDOUS SUBSTANCES

We reduce the risk of harm to children, young people and educators by using eco-friendly products. Our Service will endeavour to provide a safe environment where necessary chemical and hazardous equipment are safely stored away from children and handled appropriately.

Our policies are reviewed annually. A new Child Safe Environment Compliance Statement will be lodged with the Department of Human Services every 5 years or whenever a policy is adjusted.

We will regularly review and monitor the effectiveness of our Child Safe policies and procedures and invite children, young people, staff members, educators, families and communities to contribute to their development. Any updates or revisions will be communicated to all stakeholders.
