

## SUPERVISION POLICY

Supervision is an integral part of the whole care and education experience. *“At its most basic level, supervision helps to protect children from hazards or harm that may arise in their daily experiences in play, interactions with others, and daily routines.”* (Victoria Department of Education and Training, 2010, p.1). Effective supervision allows Educators to actively engage in play and learning opportunities that are meaningful to children and support their wellbeing, development and learning.

## PURPOSE

Educators have a duty of care to ensure children are supervised at all times, maintaining safe and secure environments whilst adhering to Education and Care Services National Law and National Regulations. Supervision, together with thoughtful design and arrangement of children’s environments, assists in the prevention and severity of injury to children.

Educators will actively supervise children, identifying risks and taking all necessary steps to prevent or minimise injury. Effective supervision of children also provides Educators with the opportunity to support and build on children’s play experiences.

## SCOPE

This policy applies to Management and Educators of the Service.

## IMPLEMENTATION

### Management will ensure

- that the premises and facilities are designed and maintained to facilitate supervision of children at all times while maintaining the rights and dignity of all children.
- Regulatory Authorities are notified of any serious incident or complaints alleging the safety, health or wellbeing of children has been compromised within 24hours of the incident or the time that the person becomes aware of the incident or complaint. This includes if an ambulance was call in response (not as a precaution) to the incident, situation or event.
- ensure that parents are notified as soon as practicable but within 24 hours if their child is involved in a serious incident/situation at the Service. Details of the incident/situation are to be recorded on the *Incident, Injury, Trauma and Illness Record*.
- educators under eighteen years of age may work at a centre based Service only if they are adequately supervised by an Educator over the age of 18 at all times and are not left alone.
- minimum Educator qualification requirements including how many educators are to be early childhood teachers, are recognised and adhered to according to legislative requirements.
- the Service maintains the required educator-to-child ratio working directly with children at all times, based on the ages and number of children being educated and cared for at the Service.

## The Nominated Supervisor will

- ensure that all Educators are aware of where all children are at all times and monitor their environment closely
- ensure Educators are able to respond to any situation immediately, particular when a child is distressed or in a hazardous situation.
- develop and maintain rosters that ensure continuity of care and adequate supervision at all times when children are being cared for and educated in the Service and on excursions.
- ensure flexibility of supervision to provide for Educators to supervise individual children or small groups of children
- ensure Educators are aware that if they need to move away from children, another Educator is to replace them. (eg: collecting additional resources or attending to an individual child's needs)
- conduct risk assessments and plan ongoing supervision taking into consideration the layout of the premises and grounds, any higher risk activities, the presence of any animals, the location of activities and the location of bathroom and nappy change facilities. The supervision plan and strategies will be displayed for families in all rooms and in the outdoor area.
- develop, maintain and regularly review a supervision plan and strategies for both the indoor and outdoor areas, which will support Educators to position themselves effectively to allow them to observe the maximum area possible.
- ensure Educators employ 'active supervision' strategies at all times

- ensure Educators avoid activities or actions that will distract them from supervision, such as speaking to other Educators for long periods of time, taking personal phone calls, checking mobile phones or administrative tasks.
- ensure educators are positioned to allow them to observe the maximum area possible
- ensure Educators move around the environment to provide maximum vision of the area and avoid standing with their back to children or talking with other Educators.
- adopt accepted best practice; ensuring no staff member is left alone with a child to support child protection protocols.
- ensure that a Risk Assessment and Management Plan is carried out before an authorisation is requested for an excursion. The risk assessment will consider and identify the number of adults required to ensure continuous adequate supervision throughout the excursion.

## Educators will

- have a sound understanding of their duty of care and responsibilities in ensuring children are within a safe environment at all times.
- communicate and collaborate with others to ensure the effective supervision of children within the Service.
- identify any non-compliance, and in doing so they must notify the nominated supervisor or responsible person on duty, the nominated supervisor or responsible person on duty will conduct a risk assessment on the non-compliance identified, which will provide a comprehensive outline of potential emergencies, accompanied by strategies and actions to be applied. Depending on the nature of the incident the nominated supervisor may need to contact the members of the management committee and or regulatory board.
- alert other colleagues if they need to leave an area for a particular reason to ensure continuous supervision of children (eg: to obtain resources, visit the bathroom).
- adhere to a supervision plan and strategies for both the indoor and outdoor environment, assisting colleagues to position themselves in order to effectively supervise children’s play. The supervision plan will include the floor plan of the Service and include the location of activities, bathroom, and nappy change facilities
- implement vigilant supervision strategies for hygiene requirements including:
  - regular handwashing
  - toileting
  - cough and sneeze routines- using disposable tissues and handwashing
- inform new and relief educators about supervision arrangements, outlining their supervision responsibilities

- regularly evaluate the efficiency of the supervision plan and make changes as required.
- ensure any educator under the age of 18 years old is never left alone with children
- ensure that at least one other Educator is within sight when working with children and when supporting children with toileting/hygiene routines
- arrange the education and care environment to maximise the ability of Educators to supervise all areas accessible to children. Emphasis will be on gates, the fence line and doors during arrival and departure times.
- communicate with each other about their location within the environment and any relevant information about supervising individual children to ensure their needs are met
- maintain correct ratios adhering to the National Regulations throughout the education and care environment
- providing flexible rostering of supervision depending on the age of children and needs of individual children
- actively engage with children to support their learning whilst actively supervising and observing children
- ensure that all children are in sight of Educators at all times
- ensure that no child is left alone while eating or at nappy change and toileting times
- adequately supervise children during rest time in accordance with the *Sleep and Rest Policy* and relevant legislative requirements
- ensure that hazardous equipment and chemicals are inaccessible to children
- scan the environment during interactions with individuals or small groups
- implement correct supervision strategies and not perform other duties while responsible for the supervision of children
- listen closely to children whilst supervising areas that may not be in a direct line of sight noticing changes in volume or tone of voice.
- plan for a mixture of activities to allow for appropriate supervision of groups of children.

Consideration will be given to the design and arrangement of children’s environments to support active supervision by:

- using supervision skills to recognise areas of risk therefore reducing the potential for injury or incident to children and adults
- providing direct, constant and proximal monitoring to children undertaking activities that involve some risk and recognising when the ratio of educators to children needs to be increased (eg: carpentry, water activities, climbing)

- guiding Educators to make decisions about when children’s play needs to be interrupted and redirected
- supporting Educators with specific strategies for supervision such as positioning, peripheral vision and monitoring children’s arrival and departure from the service.
- providing consistent supervision strategies when the Service requires relief Educators.
